

Saving energy = saving money!

Make the witch to LED

With Yarra Project Zero there's never been a better time to switch to LEDs!

1. Multiple subsidies available for businesses in the City of Yarra:

-  Yarra Energy Foundation subsidies up to \$5000
-  Victorian Energy Efficiency Target certificates (up to 20% off purchase)
-  A further 5% discount on all LED purchases

2. Access to special Yarra Project Zero offers

-  The Yarra Project Zero energy efficient lighting program is here to help you and your business save money on energy bills and reduce carbon emissions
-  No upfront payment with funding from the Sustainable Melbourne Fund

See reverse for program details.

Lighting contributes significantly to businesses' electricity bills. If your business is part of the City of Yarra and you want to **SAVE MONEY** on electricity bills, then the Yarra Project Zero program can help you achieve this.

The Yarra Project Zero Program offers:

-  A free lighting audit for your business
-  An LED lighting upgrade proposal including estimated cost and energy savings, payback period, and carbon emission reductions
-  The option to switch to an alternative energy retailer that offers you lower rates
-  A subsidy to help your business become more energy efficient

Program Partner:

A leading Australian LED lighting specialist with more than 6 years of experience designing and manufacturing leading quality LED lights. Cherry LED is a 100% Australian owned and run company.

Some of our customers include: Woolworths, Leighton Holdings, Camberwell Grammar School, Dennis Family Homes, Dan Properties Group and Pemara Printing.

Why LEDs?

LED Lights	Halogen/Fluorescent Lights
Last more than 50,000 hours	Last between 10 and 20 thousand hours
Energy efficient – Use up to 80% less electricity. Low energy consumption	High energy consumption
Decreased maintenance costs due to longer life span	Increased maintenance costs due to constant replacement
Run on temperatures lower than 80° C – Reduces fire risks and cooling costs	Run on temperatures up to 200° C
